Rickshaws Pousada e Café

orgulhodailha@gmail.com

Welcome to Mozambique Island!

We are so glad you have chosen to dine at RICKSHAWS and we trust your visit will be a pleasant one.

Mozambique Island is the first capital of Mozambique and you will discover many reminders of its history. Its past is influenced by a rich cultural impact of the Makua-Nahará people who have inhabited this land for many centuries. The influences of China, The Middle East, India, and Portugal are evident to this day.

This island offers to all who visit the chance to step back in time and enjoy its people and learn from its history as the people of this island posture for a bright and prosperous future.

The Rickshaw is more than just a great logo for an island café and guest house. Rickshaws were once quite common on the dirt streets of Mozambique Island. These Rickshaws were a normal mode of transporting dignitaries and local bureaucrats from one place to another. These Rickshaws were quite common during the era of history that is remembered by some as a time of great prosperity in Mozambique. This prosperity is remembered by many of the local population, however, as the darkest days of injustice and oppression.

Today, RICKSHAWS Boutique Hotel and Café has been established to redeem some of the history by offering meaningful work to local young people, mentoring in business, economics, work ethic, casting vision for the future and encouraging young people to lead within the community as powerful and sacrificial leaders.

We are grateful to you and your choice to do business with us. We trust your visit will be a very special memory during your time on Mozambique Island. Please know that your investment into our business is making a huge difference not only in the local economy of an emerging market but you are assisting in changing the lives and families of our employees.

Bem-vindo à Ilha de Moçambique!

Estamos tão felizes que você tenha escolhido o RICKSHAWS para o seu jantar hoje. Nós garantimos que voce tera um tempo muito especial aqui.

A Ilha de Moçambique foi a primeira capital do país e este lugar ainda reserva muitas boas lembranças do passado. No passado, este lugar teve muitas culturas que influenciaram bastante a cultura local, como é o caso da cultura do povo Makua-Nahara, que habitou esta terra por vários séculos, mas também as influências chinesas, do Oriente Médio, da Índia e de Portugal, deixaram as suas marcas na cultura. Marcas estas que ainda se fazem sentir até hoje.

Esta ilha oferece a todos os seus visitantes o privilégio de voltar no tempo, se divertir e ouvir deste povo maravilhoso a sua história. Uma história sobre um lugar lindo, brilhante e próspero.

O RICHSHAWS é mais do que apenas um grande logotipo para um café e casa de hóspedes. Riquixás foram bastante comuns nas ruas da Ilha de Moçambique. Estes riquixás eram o meio de transporte para dignatários e burocratas locais dentro da ilha. Estes riquixás foram bastante comuns durante a era que é lembrada por alguns como um tempo de grande prosperidade em Moçambique. Porém, esta prosperidade é lembrada por muitos da população local, como os dias mais sombrios da injustiça e da opressão.

O RICKSHAWS Boutique Hotel e Café foi criado para resgatar um pouco da história, oferecendo um trabalho significativo para os jovens locais, orientação em negócios, economia, ética de trabalho, de maneira a lançar a visão para o futuro e incentivar os jovens a serem um exemplo de liderança e sacrifício para o melhor para a comunidade.

Somos gratos a você por escolher o RICKSHAWS e esperamos que voce tenha uma lembranca muito especial do seu tempo aqui na ilha. Ao escolher o RICKSHAWS voce esta a ajudar a economia local mas tambem esta a ajudar a mudar a vida dos nossos funcionarios e suas famílias.

**OBRIGADO**
